

Directors Report

June 15, 2022, Airport Board Meeting

- Passenger Statistics – The airport had 4,196 passengers go through the airport in May. Making the year total 20,152 total passengers. The airport was at 14,026 at the same time in 2021.
- Airport staffing update – The airport is down one staff member in the operations department again. We will begin looking to fill the open position after July 4.
- CPA contract – The CPA contract has been signed by both SkyWest and WYDOT. The agreement between WYDOT and Campbell County will be sent out shortly for signatures.
- Letter of Support – The airport was asked to sign a letter of support for SkyWest as they try to secure a Part 135 air carrier. As a Part 135 carrier, an airline isn't required for their second officer or co-pilot to have as many hours as a part 139 air carrier. These planes also can't have over thirty passenger seats. They plan to fly these planes in their EAS markets that the federal government won't let them out of. Both SkyWest and WYDOT feel this will help the airline build up their pilot pipeline and open more aircraft for our market. The other airports in the state agreed and GCC did send a letter of support to the United States Department Of Transportation.
- Last Quarter CPA – In the last quarter of the CPA, GCC had a credit of \$46,657.73. So not only did we meet the required subsidy we also made money. This money will stay in the account to be used if needed in the future.
- Next airport board meeting – The next airport board meeting will be at the new Fixed Based Operator Building 2000 Airport Road building 16, on July 20, 2022, at 4 pm. This will be a quarterly meeting with the County Commissioners.
